SUMMARY

I am a graduate of the Full Stack Web Development program at Array, School of Technology and Design. I am also an experienced computer animator with a specialization in scientific and technical animations. I am looking to leverage my extensive and varied background in digital content creation into a development position.

EXPERIENCE

DIGITAL STUDIO ASSOCIATE, Lexington Public Library
April 2013 - June 2016, Lexington, Kentucky
Assisted people in the use of computers and media technology.
Taught classes on the use of various media software.
Managed and maintained a dozen Mac Pro computers.

VOLUNTEER, Newton's Attic
April 2011 - June 2016, Lexington, Kentucky
Engineering mentorship for teens using hands-on building projects to engage youth in STEM education.

COMPUTER ANIMATOR, Digital Radiance
January 2005 - December 2010, Huntsville, Alabama
Created educational and technical animations to convey complex ideas in a form easily understood by the general public and used video game technology to teach math and science.

CAD OPERATOR, Integrated Sign and Graphics
July 1999 - September 2001, Lexington, Kentucky
Commercial Signage Manufacturing
Converted artistic design intents into manufacturable designs.
Generated precise tool paths for CNC router table.

EDUCATION

ARRAY, SCHOOL OF TECHNOLOGY AND DESIGN
October 2016 - April 2017, Cheyenne, Wyoming
Full Stack Web Developer program

ART INSTITUTE OF PITTSBURGH
October 2001 - September 2004, Pittsburgh, Pennsylvania
Bachelor of Science in Media Arts and Animation

SKILLS

HTML	CSS	SCSS	Javascript
Bootstrap	JQuery	Ruby	Ruby on Rails
